

# COVID-19 coronavirus: SafeWA

## QR Codes for Home

SafeWA is the WA Government's free online contact register app that's easy to use, safe and contactless.

Valued Lives encourages participants whose homes are frequented by support staff to register their home and use the app to record visitors. This will help with track and trace in the event of exposure to Covid19.

### Set up instructions

#### 1: Open the Safe WA app on your phone

(make sure you don't accidental open the new ServicesWA App)

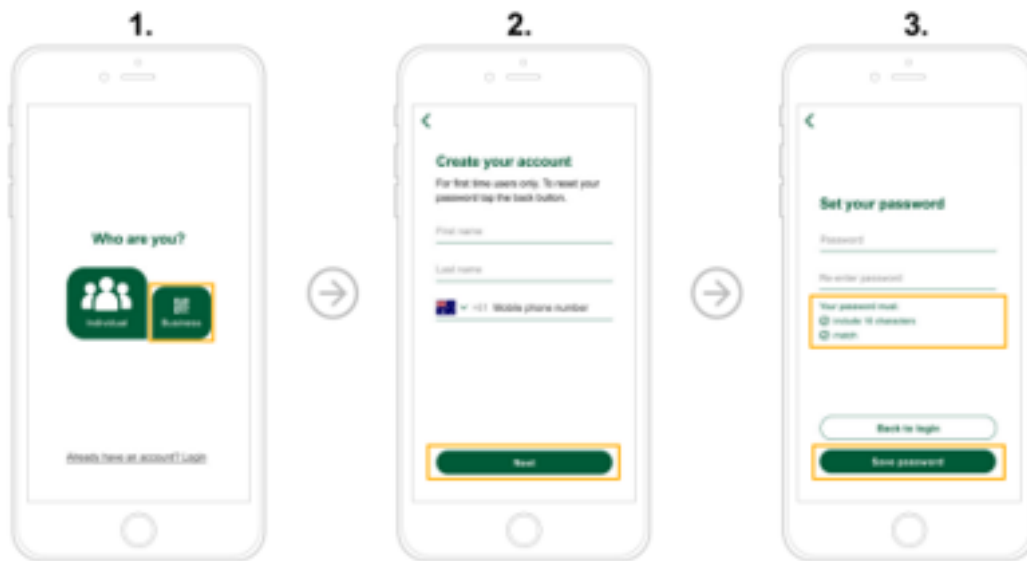

#### 2: Open settings found in the top right-hand corner (see the image below):

- ✓ This is the home screen for an Individual account in the SafeWA app.
- ✓ It opens to the scanner ready to scan a SafeWA QR Code.
- ✓ You can navigate from this screen to settings, scan history and switch to your "Business" account when you set one up.

- 1.**  
This will take you to your last **scan history**
- 2.**  
This is your **settings** icon
- 3.**  
If you have a **business account** set up, you can switch between your **individual** and **business accounts** by tapping this button

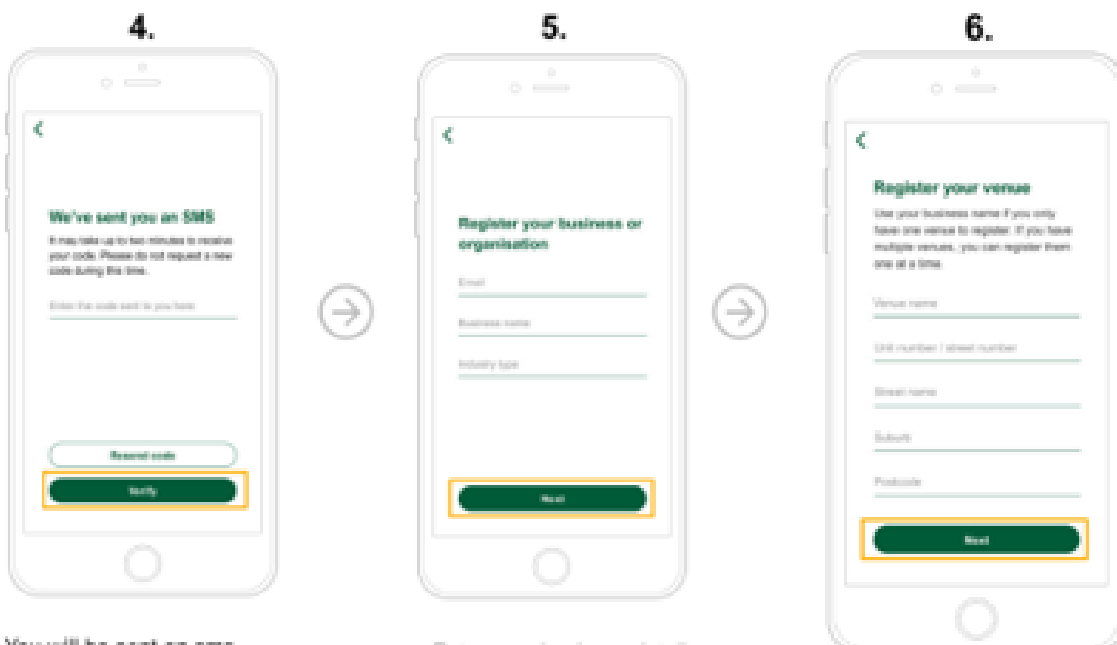

### 3. You now need to register the home as a businesses

Tap Business

Enter your personal details and tap Next

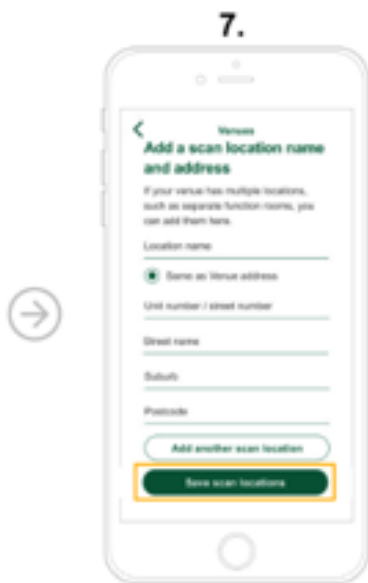

Enter a password that meets the minimum security conditions

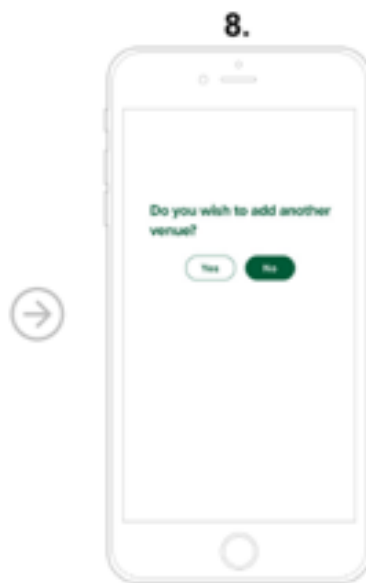

You will be sent an sms containing a code. Enter this into the app to Verify your account

Enter your business details

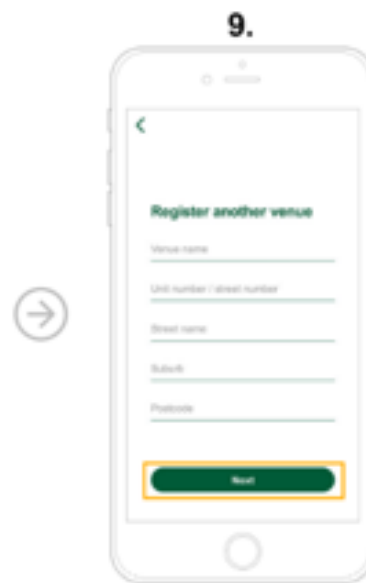

Enter the details of your first venue and hit Next

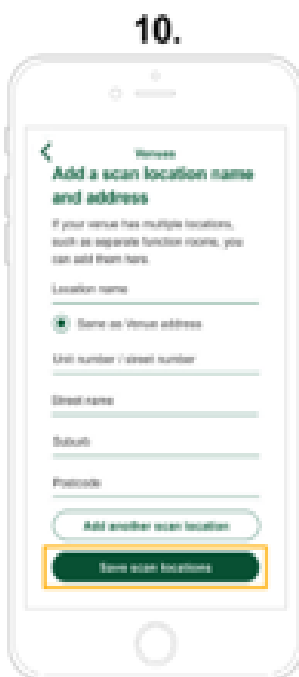

7. Add the relevant scan locations/entrances for your venue and tap **Save scan locations**

8. Add an additional venue if you have more than one

9. Enter venue details and tap **Next**

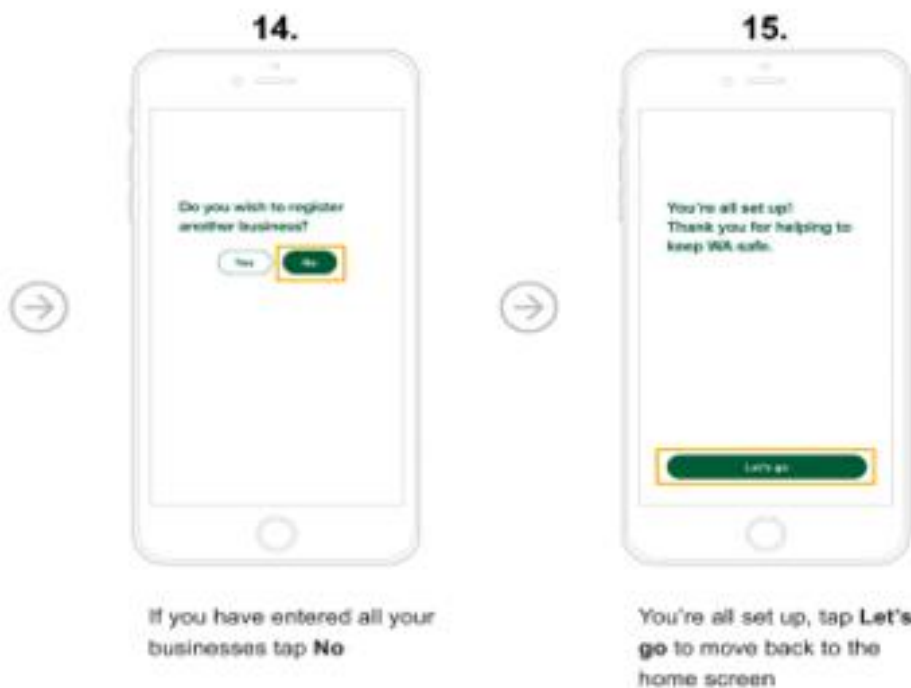

10. Add the relevant scan locations for your second venue and tap **Save scan locations**

11. If you have entered all your venues, tap **No** and continue to the next step

13. Your business is now registered. Check your email for your QR code poster/s and tap **Got it**. If you did not receive your pack then tap **Resend SafeWA pack** button to download them directly

#### Things to be mindful of:

- ✓ Who ever is registered as the owner of the home (venue) will be notified if anyone who has checked in with that QR Code tests positive for Covid19.
- ✓ You can register more than one location in the app if you have loved ones living in various places.
- ✓ There is a risk that the details of a location will be made public if contact tracers believe they cannot contact everyone who has been to a location. If they feel they can, they see no need to release the specific details.
- ✓ Remember to change the app between your individual/business accounts when you are logging into different locations.
