

# My Home, My Way

A webinar to assist people with a disability to create and thrive in their own home

3 Part Webinar Series

2nd, 9th and 16th May 2022 | 6pm- 8pm

## About this Webinar Series

### Home is a vital part of our lives.

It provides us with security, privacy, comfort and reflects our identity, our adulthood and deep sense of who we are and how we connect and belong in our community.

Yet for many people with intellectual disability and autism, home is designed by others, with little control over the decisions that most people take for granted.

This webinar series will explore individualised and innovative ways that people with disability have created their own home, while getting the support they need.

### Topics covered include:

- What does it really mean to have a home of your own and it possible?
- Creating and holding a personalised vision for home
- First steps to consider when creating a home of your own that's unique to you
- Living in your own home and settling in
- A range of home options and creative pursuits
- Addressing barriers, challenges and fears
- Home as part of community and neighbourhoods
- Setting up or long term safety and success
- Stories about people living successfully in their own home with a range of supports
