

Meet Our Executive Team

Who We Are

Our Values

VAL's Voice

Our community newsletter is back! We'll be sharing important updates, stories and opportunities for you to provide feedback to shape upcoming editions of VAL's Voice.

We've been busy onboarding new staff and making important changes to the policies, procedures and systems at Valued Lives so that we can deliver an even better service to you!

Brevity Rollout

We thank you for your patience as we make the organisational transition to Brevity software, including the use of the Brevity App for Support Workers and Business Assistants. Brevity has enabled us to decrease our time spent on administrative tasks and better streamline organisational communication.

We believe that you'll be able to enjoy a range of benefits, including:

Time Saving

Brevity allows our staff to spend more time with you, and less time on paperwork.

User-Friendly Technology

Brevity allows for easier rostering, reporting, payroll processing and more.

Personalised Services

Brevity is customisable and highly personalised - it

allows us to better understand you.

Meet the Team

Meet our new Data Management Officer, Rhiannon!

Starting out as a support worker, Rhiannon has held multiple roles at Valued Lives, most recently as Administration Coordinator.

Hi Rhiannon, could you tell us about your role as Data Management Officer?

My current role is as a Data Management Officer, a new role within the organisation. My role is to input and maintain the data and information that helps the organisation run on a daily basis. My role is incredibly varied and each day holds a new challenge for me to tackle.

What's your favourite thing about your role?

Every workplace has small issues day to day that cause a hassle and I really enjoy problem solving, so spending my days doing that is something I find incredibly rewarding!

Can you share an interesting fact about yourself?

A fun fact about me is that I play Dungeons & Dragons with a group of my friends. I used to think it wasn't very cool, but I was wrong!

We value your feedback

We'd like your input to help us shape VAL's Voice going forward. Do you have any suggestions for us? What would you like to see? Click 'view in browser' at the top of this email to provide your feedback below.

Valued Lives ✓

2022-04-11

Moving out of home for the first time or moving somewhere new is a very exciting time in our lives. It can also be stressful!

Do you have a disability and want to understand more about creating a vision so that you can live in your own home? Do you want to find out more about how you can be supported in your own home, because you want to explore options beyond the traditional 'group home model'?

Valued Lives (as part of the National Alliance of Capacity Building Organisations NACBO) is running a 3-part webinar series for people with disabilities and families to explore and develop an inspiring vision of what home means to you, steps you can take towards getting ready to move or refresh your current home situation.

We will also be hearing stories from people with disabilities who are successfully living in their own home with a range of supports and steps they took to make this a reality!

Please find more information and how to purchase tickets here:
